DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Title: Seminar on Python Programming Organized by CSE Department

Date: 15th March

Introduction:

The Computer Science and Engineering (CSE) department of our institution organized a seminar on Python Programming on 15th March. The seminar aimed to introduce students to the basics of Python programming language and its applications in various fields.

Event Details:

The seminar was held in the KCGRPI Seminar Hall from 10:00 AM to 11:30 PM. It was attended by over 60 students from different semesters. The lecture was delivered by *MR Swapnil Lakhanpal A senior software Engineer from CS Soft Engineer (Chandigarh)* highlighting the importance of Python programming in the current technological landscape.

Key Highlights:

- The seminar covered topics such as the basics of Python programming, data structures, libraries, and real-world applications.

- Experienced faculty members from the CSE department delivered informative sessions and hands-on demonstrations to help students understand the concepts better.

- The seminar also included a Q&A session where students could interact with the speakers and clarify their doubts.

Outcome:

The seminar was well-received by the students, who found it informative and engaging. Many students expressed their interest in exploring Python further and incorporating it into their academic and professional projects. The event successfully raised awareness about the importance of Python programming skills in the field of computer science and engineering.

Conclusion:

The seminar on Python Programming organized by the CSE department was a valuable learning experience for the students. It provided them with a solid foundation in Python programming and inspired them to delve deeper into this versatile language. Such initiatives play a crucial role in enhancing the technical skills and knowledge of students, preparing them for future challenges in the ever-evolving technology industry.
